

## THE SKYHAWK YEARS

Along the road to publishing, there is a thing called pre-printing costs. These costs are borne by the authors, to enable the publisher to setup the publishing process. Being retirees, the authors sought help with these. After the original attempt to source a grant failed, we turned to the Fleet Air Arm Association of Australia, who launched a crowd funding appeal.

There were two categories: “Supporters” who offered \$200 or more, and “Sponsors” who offered \$500 or more. Amazingly, the money was raised within three weeks and has made the publishing of this book a possibility. The authors gratefully acknowledge the generosity of the Sponsors and Supporters who are listed below.
